

I listen to K-LOVE everyday on the radio, in my car and at home. This is a fantastic station. First of all, it is true to it's word. It is positive and encouraging. I have felt blue sometimes and once I hear this radio station, I catch myself singing along and smiling. The DJ's are fantastic and make the station better. I think there should be more stations like this.

If the LPFM stations take over the FM translator service, we would probably lose K-LOVE. That would be horrible. This country needs to hear the message that K-LOVE sends. You never know when someone will hear a song on K-LOVE and it will make a big difference on their life. I know I am a better Christian since I started listening to K-LOVE because now I surround myself with a "positive and encouraging" radio station. Please leave K-LOVE as it is!!!!
We, the American people, need it!!!
